an agreement was consummated between the Indian (Dawes) commission and the Chickasaw and Choctaw tribes for the allotments of land in severalty, the disposition of town sites, jurisdiction of Federal courts and for presidential approval of acts of the tribal council. This announcement came in a telegram today from the commission.

The agreement is a significant step forward in the interests of the government's work of breaking up tribal relations and civilining Indians. The present agreement of course, supercedes that made by the Dawes commission with the Choctaw nation alone in December, 1896. The Choctaws and Chickasaws have a mutual interest in each other's land.

The Choctaws' lands embrace a territory of 6,688,000 acres, or 1450 square miles. This is considerably larger than Massachuseits or New Jersey. The present agreement, it is stated, covers all the points of objection to the former one, whose provisions regarding the withdrawing of coal lands, town sites, sites of religious societies, etc., and as to the status of the freedmen were especially complained of.
